HALIFAX, N. S., August 31 .- The great four-oared race came off to-day. The water was rough, with a northeasterly breeze and a considerable swell. The start took place at a quarter past one. The positions were determined by drawing lots. At the start the Renforth crew shot ahead, making 42 strokes; the Tyne crewfollowed at 21 strokes, the Americans at 44, and the Pryor at 40. At a third of a mile the Roche crew gave up. Until nearing the stake-boat the two English crews were even. The Renforth here seemed to mistake the fing, and the Winship crew, with a desperate sport, went past and turned beautifully, distancing their rivals considerably. The next to pass was the THE FOE OF THE CHURCH Pryor crew, which was followed closely by the Americans. At the fourth mile the Ren-

forth was fourth and the Barton last. At the fifth mile the Americans made a splendid effort, and shot shead. The Pryor crew here came up, and in a few minutes the boats were all even. At this point the excitement was intense. From here the Winship crew gained slowly, the Pryor crew being close up, and the American crew slightly behind. The Winship crew made a desperate effort, amidst the applause of the crowd, and won the race. The Pryor crew also did their very best, and to the delight of the Nova Scotians came in a good second, followed closely by the Americans and the Renforth crew. The time of the race CHICAGO, where they are prepared to accommodate was given at 45 minutes and 55 seconds. The scull race takes place early to-morrow, should the weather permit.

New York, August 31 .- A correspond. ent writing from London, the 19th, says that the attacks upon the Queen lately made in the Times and in the Home of Commons and Lords, by Lord Oranmore, have resulted disastrously to her health; that, besides, she has been considerably distressed over late occurrences in Dublin. When at Peath, on the 16th, she looked sad. There was an indifferent demonstration of the populace. VERBAILLES, August 31 .- In the Assembly to-day Picard made a fervent appeal for harmony in the Chamber and elsewhere. He said it was the duty of all Frenchmen in the presence of the enemy to forget their dissensions and take all means to strengthen rather than weaken the power of the gov-

tion to the constituent powers of the Assembly, was adopted, and subsequently Dufore's paragraph enlogizing the conduct of Thiers. was carried by a vote of 523 year against 34 nays. One hundred members abstained from voting.

St. Domingo, Aug. 31.—The revolution-ists under Cabral have formed a provisional A new and well organized attack is to be made against the troops of Baez. Baez on his side is not idle; he continues making great military preparations in Asena, and the United States steamer Nautucket is said to have left Samana and to be at present cruising near Asena to co operate by sea.

The entire sys-tem is prostrated by suffering, we long for rest, but the acute, darting pains will not permit us that pleasure. External applications are useless and often prove dangerous, by driving the pain to some vital organ. Drive it out of the system instead of driving it in, and Taylor's Stomach and Liver Corrector is warrented to

give relief. It will go to the seat of pain, strengthen the nervous system, and effect a cure.

TAYLOR'S

Has one great distinguishing feature, which has long been sought for in a cathartic preparation to take the place of that medicine which leaves the bowels more or less weakened for a time, in-dicated by subsequent costiveness, which is the case with most cathartic mixtures and pills. In this preparation there is combined a Tonie, which completely sustains the bowels and system while a cathartic influence is being produoed, therefore never lesses its effect, does not leave the bowels costive, and may be used by the most delicate person. For the diseases named, it acts with the most perfect efficiency, searching and rooting out all impurities of the system, giving health, vigor and strength to the whole body.
